DETAILED ACTION

Election/Restrictions

Applicant's election of Species 2, figs. 4-5 and the subspecies of fig. 9 in the reply filed on 04/13/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Ahmadi et al (US 4602911). Ahmadi et al clearly discloses the method as claimed (col 5- lines 15-68) since the use of a heart-lung machine requires stopping the heart and bypassing blood flow which inherently stops the flow of physiological fluid (blood) through an anatomic orifice (heart valve).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tu et al. (US 6,406,493)
